

TERRY RUN WITH

November, 2013

Dear

Jeffrey,

The Terry Fox Foundation is delighted to share news of the success of the 33rd Annual Terry Fox Run, which raised an amazing **\$12 million** for cancer research! This year was another record-breaker for teams, with 1,700 teams contributing **\$2 million** towards the cause! Made up of family members, friends, work colleagues, and associates who motivate and challenge each other, teams are the fastest growing segment of the Terry Fox Run. Dedication teams—formed in honour of a loved one’s cancer battle—serve as the most poignant reminder of why we have to do this work. We received this message from the Jennie Dinh, Captain of Team #gottabeKDinh:

“Kevin was diagnosed with osteosarcoma in July 2011, which started in his wrist. He went through chemo and got an amputation on his forearm in December, taking it like a champ. Unfortunately the cancer remained and he passed on May 9, 2012 at the age of 17.

Team #gottabeKDinh was formed by Kevin’s family and friends to celebrate his life, remember his infectious energy, and honour his courage. As Kevin’s big sister, I was forever impressed with his compassion for others. Always willing to help, he managed to infuse humour into any circumstance.

Team #gottabeKDinh could not be prouder to honour Kevin’s legacy in our mission to find cures for all cancers alongside The Terry Fox Foundation!”

Team Inspiration Kevin Dinh

As we move into the holiday season, what greater gift could we give than the gift of hope? Your time, effort, and involvement in the 2013 Terry Fox Run has already translated into hope for cancer patients and their families. On behalf of them all thank you for keeping Terry’s dream alive.

With sincere appreciation,

Bruna
